

Primary 2 Memories

This year we are finishing school in a very different way, a way that has never happened before. We won't be together in person as a class or school so we thought we would take this time to reflect on the times we have had together.

As we are coming to the end of our final term, let's look back and celebrate all the fun times Primary 2 has given us. Your task is to think, discuss and share your favourite day in Primary 2, a new skill you learned and your best memory from this year. You can complete this task in any way you like eg. video, audio recording, writing frame, poster. Miss Critchley and I are going to share our P2 memories by video. We hope you all enjoy them and we are looking forward to hearing about your special times.
